### PHOTOGRAPH PERMISSION

There seems to be a growing concern about photographing children in public. This concern has prompted us to have a written permission to photograph your child while he/she is at the center. These photographs will be used for display purpose only. We like to take frequent photos of the children engaged in everyday activities that we do. These are a great ways to show Parents what your child does all day in the center and how they are learning. We also like to use the photos for a scrap book of memories to have available for families and Prospective families to look at. The children also love to look at themselves! All Photographs are property of Kids Habitat 4 and can be used for publication.

I give permission for \_\_\_\_\_ to be photographed by

(Child's Name)

Kids Habitat 4.

I understand that these photographs are for Kids Habitat 4 purpose only and can be used in publication.
